Metronidazole ointment: When ordering the Metronidazole 10% you need to order the medication as "Metronidazole Powd." When you type that in and search it will not come up, but in your search results box select "Database" in the top right corner. Then you should be able to find the order. If you need help in doing this and customizing it as a preference to make it easier for the future, let me know. Once you find it, under the "+Add Note to Pharmacy" you can use the

NRPILOMETRONIDAZOLEPHARMBLURB to explain what you want specifically. You must send the order only to Biomed Pharmacy in West Chester, unless you find another compounding pharmacy to make it.

NOTES: I have created two note templates, an initial new visit and follow-up notes:

NRNOTEPILOFU	Progress note for established Pilonidal patient	343241	ROSEN, NELSON
NRNOTEPILONEW	Note for initial pilonidal evaluation	344478	ROSEN, NELSON

PROCEDURE: I also have a generic procedure note for Incision and Drainage

NRPROCEDUREINCISIONANDDRAIN	Standardized note for draining an abscess in the office setting.	359499	ROSEN, NELSON
-----------------------------	--	--------	---------------

OP NOTES: Here are the operative notes:
