

Standard Notes

1). If using isolated g-tube/button template:

- Type “ip standard” into text box that reads “Insert SmartText”.
- Choose appropriate note (g-tube vs. g-button)

2). If g-tube inserted as part of a larger procedure:

- Use dot phrase “newgtube” or “newgtubebutton” to insert phrase into “Findings” section of op note

Be sure to include number of cc sterile water in balloon and height of disc at conclusion of case in the note
